Improve Your Playground With

PEACEFUL PLAYGROUNDS™

“We have found that lots of playground problems are directly related to the fact that most playgrounds simply don't have enough for children to do.”

—Melinda Bossenmeyer, Ed.D.,
Peaceful Playgrounds™ designer

Research indicates the average playground provides for 6 game activities. While PreSchool Peaceful Playgrounds™ offers 18 game and activity choices.

Well marked game activities provide increased motivation for children to enter into an activity and become engaged in purposeful play, thus cutting down on playground confrontations.

“Our teachers have been able to spend more time teaching and less time settling playground disputes!”

—South Elementary School, IL

“With lots of game choices, children have lots to do and few conflicts.”

—Principal Debbie Blow, CA

With the PreSchool Peaceful Playgrounds™ Program Kit, you can transform your playground into a colorful arrangement of games kids love to play. Design permanent playground activities that help make activity time more positive and productive: hopscotch, skipping track, and alphabet grid are just a few of the nearly 18 activities that can be added. The program is intended to maximize the number of students involved in physical activity, rather than having them wait in line, or just stand around talking.

The PreSchool Blueprint and Activity Guide assists you with measurements, layout, spacing, game placement, and overall design. Also included are conflict resolution strategies, teacher training and playground supervisor training materials to complete the package and insure success! Set up is easy and can be done by members of the school staff and parents.

“Burning off energy makes kids more focused when they return to class.”

—Garrett 1998

Peaceful Playgrounds Online Courses

Course 1- Playground Supervisor Training and Certificate

School districts often call after a child is injured. Faced with a lawsuit, they are filled with concern and wondering if it's their fault. Most school district officials that I speak to honestly don't know if the surfacing is adequate if the play structure is in compliance with state regulations, if supervision is reached a satisfactory, “standard of care”, or in short if they are liable for the injuries sustained by the child at school.

The answers to the questions above on surfacing, play structure safety and playground supervision are covered in the online Playground Supervision Training Course. The Course highlights supervision responsibilities and “how to keep kids safe”.

Participants passing the exam at the end of the course will receive a Playground Supervisor Training completion certificate.

Call 877.444.9888 for registration information or register online at www.peacefulplaygrounds.com.

Course 2- Peaceful Playgrounds Workshop and Certificate

Our online training will cover all the topics of our face-to-face training. Watch the Video Presentation of an actual training. Receive your Peaceful Playgrounds Certificate.

Topics Covered:

- Conflict resolution techniques
- Solving problems on playgrounds
- Game rules
- Equipment distribution and monitoring
- Staff role and responsibility for safe playgrounds
- Designing a safe playground
- Legal issues surrounding playgrounds

PP Equipment Companion Pack

A comprehensive set of playground equipment that will help you maximize your Peaceful Playground. Research has shown that children will be more active when they have access to consumable equipment. We recommend 1 piece of equipment for every 10 children minimum! This Playground Equipment Pack is all the equipment you'll need to fully implement the Peaceful Playgrounds Program at your school.
